## SUMMARY

Product Manager with 5+ years in technology, moving from developer to product owner. Most recently worked as sole PO for 5 core modules of ICICI Bank's web banking platform serving 30M+ users, leading a 19-member technical team. Launched key product features for ICICI Bank that cut fraud cases by 30% and lifted feature adoption 15%. Building GenAI product skills through applied coursework in LLMs, RAG pipelines, and multi-agent systems.

## PROFESSIONAL EXPERIENCE

**Business Analyst (Product Owner - Client: ICICI Bank Ltd)** – Wipro Limited, Hyderabad, India **May 2022 – Jan 2025**

- Owned roadmap and backlog of 5 core modules of ICICI Bank's RIB platform, leading a 19-member tech team, turned business goals into 150+ prioritized user stories with acceptance criteria, cutting rework 45% and reaching 90% defect-free releases.
- Led redesign of 5 core banking journeys with UX and engineering, lifting feature adoption 15% and contributing to 6% revenue growth in 2 months.
- Launched Smart Lock, a fraud-prevention feature (15K+ monthly users) that cut unauthorized access, phishing and UPI fraud cases 30%, built a downtime fallback letting customers open FDs during outages, enabling 30K+ new deposits.
- Launched DigiLocker locker renewals (80K+ users, 40% adoption) and Smart Checkout (300K+ transactions), working with cross-functional stakeholders.

**System Engineer (IT Business Analyst - Client: Nordea Bank)** – Tata Consultancy Services (TCS), Bangalore, India **Sep 2020 – Feb 2022**

- Translated 50+ FATCA/CRS business requirements into technical user stories for Nordea's CCE with stakeholders.
- Delivered 25+ enhancements to tax validation logic (self-certification, TIN checks, reportable-account flagging).
- Defined user acceptance criteria, designed test scenarios and ran UAT for compliance rule changes, closing 100+ defects across SIT/UAT with no critical defects in production.
- Led RCA on issues, aligning fixes with business teams and shipping patches through a Jenkins/Docker CI/CD pipeline.
- Presented application health and performance monitoring reports to business stakeholders, shaping release timing and fix priorities.

**System Engineer** – Tata Consultancy Services (TCS), Bangalore, India **Sep 2019 – Aug 2020**

- Built and tested data migration scripts in Azure Database Migration Service to move 400K+ employee records from legacy databases to Azure SQL (cloud) with 100% data integrity.
- Flagged 10+ requirement gaps and worked with business analysts to update requirements in Jira, keeping every migration phase on schedule.
- Collaborated across 4 teams for zero-downtime releases, a process improvement that contributed to a 20% reduction in infra costs.

## PROJECTS

**PM Copilot – Multi-Agent AI Assistant for Product Managers** · ***GenAI Product***

- Built and deployed PM Copilot, a multi-agent GenAI assistant orchestrating 3 LLMs (GPT-4o, Gemini, Llama 3.3 via Groq) with LangChain, generating a PRD, market sizing, user stories and risk assessment from one product description in under 90 seconds, with live chat-based refinement on Streamlits Cloud.

**ChowPal – Community Cooking & Grocery Marketplace** · ***Product Strategy & User Research***

- Led customer discovery through 25 interviews (15 students, 10 grocers), finding 13 of 15 students struggled to find cultural ingredients, and built the full product package of PRD, $260M TAM, personas, 15 user stories, a 4-quarter roadmap and a Year 1 financial model ($850K costs).

## LEADERSHIP & ACHIEVEMENTS

**Product Manager** – Aspiring Product Managers Club, Northeastern University, Boston, MA **Jan 2025 – Dec 2025**

- Led the club's Mentor vertical (8 sessions, 25 students) and co-led Product Conference 2.0, shaping its theme and multi-track agenda for 300+ attendees and hosting 35 industry leaders.

## EDUCATION

**Northeastern University, Boston, USA** **(Expected) Dec 2026**

**Master of Science in Engineering Management (Product Management Concentration)**

**Relevant Courses: Digital Product Design and Management, Advanced Product Management, Generative AI, Project Management**

## SKILLS & CERTIFICATIONS

**Product Skills:** Product Strategy, Product Roadmap, Go-To-Market Strategy, PRDs, User Stories, Sprint Planning, MVP Definition, User Research, Design Thinking, Wireframing, Market Sizing (TAM/SAM/SOM), KPIs & Success Metrics, Stakeholder Management, Cross-Functional Collaboration, Agile/Scrum, Technical Trade-offs, Executive Presentation, BRDs, Functional Specifications,
**Technical:** Generative AI, LLM Applications, Multi-Agent Systems, LangChain, Prompt Engineering, REST APIs, Microservices
**Tools:** SQL, JIRA, Confluence, Figma, Postman, Dynatrace, Splunk, ELK, ServiceNow
**Certifications:** Generative AI for Product Managers; Agile with Atlassian Jira; PM: Building a Product Roadmap
